The Bark Mill is a restored mill that was established in 1885 for the purpose of milling bark. The milled bark was sent to tanneries all over the world to tan hides for making leather products. Over the years the bark mill was sold and restored, later becoming a museum. Two decades later a restaurant, bar, bottle shop, and bakery were added to make it what it is today. We are a venue like no other on the east coast, from our wine list to the kitchen and our house made breads. We promote and use Tasmanian produce and products with a focus on supporting local wherever possible.
